We believe in unity in diversity, that's why our students respect the different religions, languages and cultures. We feel that the college is our second home and all the faculties are like a family member .we greet and wish each other at different festivals and invite them to have a feast to get introduced with one another culture to have amicable relations and to maintain the religious ,social and communal harmony. Similarly our students also celebrate the different festivals with joy and enthusiasm which help them to implant the social and religious harmony. The diversity in India is unique, being a large country with large population India presents endless varieties of physical features and cultural pattern .It is the land of many languages. it is only in India that people professes all the major religions of the world to respect our Indian culture. On the eve of our college annual gathering we organized a traditional dress competition and fashion show .In this competition students wore the different attire representing the different states, religions and cultures. Through this activity, students get acquainted with the different cultures of our nation and to help to develop the tolerance and harmony towards cultural, regional, linguistic, communal socio economic and other diversities .This also creates the inclusive environment in the college and society .The college has taken many extra efforts to provide a very inclusive environment for the students and faculties as well. This initiative was taken to exhibit harmony towards technical events. Each department organized science expo were the students exhibited their project, that meets the society needs and requirement .Students of various departments showcased different model to show their talents .Every year is a -customary in our college to celebrate fresher's day .The main motif of this day is to welcome new students in a friendly atmosphere and to encourage their creative impulses to boost their confidence.
